

PEEK A BOO SIDE TABLE

Natural

At Phillips Collection, we are highly selective in the wood we source. Chamcha is a fast-growing species of the Acacia family and is native to Thailand. We are drawn to the beautiful wood grains and blonde sap lines that create this two-toned natural finish. No need to change what Nature has already perfected! This playfully elegant side table is carved from solid wood with a decorative hole. We kept a freeform feel to the sides by not simply using straight cuts giving an organic feeling to this great piece.
