

PIPAL WOOD SCULPTURE

The perfect example of how we use even the most random pieces of natural wood we source, the Pipal Wood Sculpture is made from pieces of wood that many product designers would see as useless castaways. The warmth of the wood and the clean lines of the minimal metal as are juxtapositions. A design detail of note is how the pieces of wood are loosely joined to create a continuous piece of art. This piece definitely personifies the modern organic ethos for which Phillips Collection is renowned.
