

## **CAGE SIDE TABLE**

Chamcha Wood, Iron Base, SM

Chamcha wood is a fast-growing tree that is prized for its richly figured grain and distinct sap line. It is characteristic for these trees to grow crooked and with low and heavy branching. This allows for some of the most interesting and organic forms seem in the world's forests. It is this irregularity that defines the Origins Collection; where we look for those pieces that stand out and turn them into functional works of art. Chamcha wood, paired with recycled metal, not only makes these tables statement pieces, but also gives them a green story.

Size 20x20x23"h (21x21x24"h packed)

Weight 24 LBS (27 LBS packed)
Material Chamcha Wood, Metal

Color Brown
SKU TH65513
