

## FREEFORM WALL TILE

Natural, Assorted

The perfect example of how we use even the smallest pieces of natural wood we source, the Natural Freeform Wall Tile is a piece of wall art created from a slice of chamcha wood that many product designers would see as useless castaways. These are assorted so each will exhibit dynamic natural elements with their own texture and organic patterns unique to the material. The irregularity of the shapes make it perfect for the modern organic ethos for which Phillips Collection is renowned. We also offer this in a gray finish.
