

CONCRETE BAR TABLE

Chamcha Wood Top

We at Phillips Collection are known for our furnishings in personable chamcha wood, a golden acacia that we responsibly source from the jungles of Asia. The top on our Concrete and Chamcha Bar Table is one of the pieces we've rescued from being one of Nature's finest castaway by making it into an elemental design statement. Several design distinctions of note on this bar table are the natural graining of the wood, the textural beauty of the rings on the top that illustrate the life of the tree, and the sleek juxtaposition of the slim concrete column on which it sits. This round bar table reflects the ethos that Phillips Collection personifies: modern organic.
