

FREEFORM WALL TILE

Gray Stone, Assorted

The perfect example of how we use even the smallest pieces of natural wood we source, the Freeform Gray Stone Wall Tile is a piece of wall art created from a slice of chamcha wood that many product designers would see as useless castaways. These are assorted so each will exhibit unique textures and patterns inherent in the material. The irregularity of the shapes makes it perfect for the modern organic ethos for which Phillips Collection is renowned. We also offer a square tile in a natural finish.
