

SKIPPING STONE COFFEE TABLE

Gray Stone, Forged Legs

The Skipping Stone Coffee Table was inspired by the effect of water eroding stone over a period of time. The end result is a smooth, narrow, lightweight table that is easy to move and looks fantastic, no matter where it's placed. Made of natural chamcha wood and finished in gray stone, this table emits a beautiful contemporary feel when paired alongside our forged iron legs. The Skipping Stone Coffee Tables are a textbook example of the Phillips Collection ethos: modern organic.
