

GEOMETRY COFFEE TABLE

Natural

Playing around with shapes is one of the main implements in our tool kit at Phillips Collection. In combining the deepest black and natural wood on slant, as we have with our Geometry Rectangular Natural Coffee Table, we've created a sophisticated profile that brings organic warmth and contemporary cleanness to a space. The surface variations of the woodgrain also bring texture into a room. We have a wide array of shapes in coffee tables, console tables, and side tables in this collection, as well as tables in a gray finish, and stools and wall tiles. Each of these reflects the ethos that we personify: modern organic.
