

BLOCKS WALL ART

Chamcha Wood, Natural, LG

The Blocks Large Wall Art is made of irregular end-cuts of chamcha wood that have been artistically placed by hand onto a base. Providing the sculptural piece with added interest are the differing heights of the pieces of wood that extend forward, and the alterations in the direction of the wood grains, the angles, and the cuts. Though the piece was created with painstaking precision that only the most talented craftspeople can achieve, it looks organically happenstance. Also bringing the piece a feel of authenticity is the fact that the wood is reclaimed so the natural characteristics of the material's life before becoming art adds tremendous patina. This piece of wall art reflects the ethos that Phillips Collection personifies: modern organic.
