

NEST MIRROR

Chamcha Wood/Wire, Copper, SM

Just like a bird might weave its home, the Small Nest Mirror is made of wire that has been playfully wrapped loosely around a decorative mirror. The mirrored glass is framed by a thin circle of chamcha wood, a tonal element that echoes the warmth of the copper finish on the surface of the wire. We offer this round mirror in a larger size. Personable on its own, hang the small-sized mirrors in a gallery wall installation with the larger sizes to create a lively accent-wall arrangement. These decorative mirrors reflect the ethos that Phillips Collection personifies: modern organic.
